

300D Series LED Tube

LINEAR FLUORESCENT RETROFIT LAMP

For: T8 and T12 lamp replacement

The Energy Focus 300D Series LED Tube utilizes a direct-wire installation mode. Direct-wire TLEDs require that any existing ballast be removed and the TLED be rewired to operate on AC line voltage. Simple re-wiring and replacement of non-shunted lamp holders are also required. By removing the ballast your TLED no longer depends on any additional hardware to function normally and also minimizes points of failure - less maintenance required. In addition, the 300D Series provides 130 lm/W efficacy.

FEATURES AND BENEFITS

- Flicker-free LED lighting
- Non-shunted lamp holder required
- Integrated driver, Type-B (Direct-Wire)
- Replacement of existing tombstones recommended when retrofitting
- Single-ended power; INPUT end is electrically connected, other end has no internal connections.

Must use non-shunted lamp holders

For more information please see Accessories section.

PRODUCT SPECIFICATIONS

Length	2' and 4' versions. Meets ANSI standards
Body	Oval extruded aluminum
Lens	Polycarbonate lens
Connection	Medium bi-pin (G13) end cap
Input Voltage	100-277vac, 50/60hz
Driver	Single end power; integrated LED driver
Available colors	3500K 4000K 5000K
CRI	>80
Dimming	Non-dimmable
Lifetime	L70 ≥60,000 hours
Warranty	10-year warranty
Environmental Requirements	Operating temp: -20° to 50°C Storage temp: -30° to 60°C Working humidity: 30% to 85% Storage humidity: 10% to 90% Non-corrosive environments
Power Factor	>0.9
Beam Angle	120°
